INFORMATION REGARDING SERVICE

FRANCHISE START DATE

Effective November 1, 2022, LRS will become the official commercial waste and recycling hauler for the City of Evanston. Services including days, sizes of containers and quantity of containers will remain consistent with your current service levels. The only difference you may notice will be a lower price in what you pay for waste services.

BILLING AND INVOICE OPTIONS

- LRS bills in advance on a monthly basis
- Paperless Electronic Mail Billing and Auto-Pay options will be available
- Your first invoice will be expected in mid-November. Included with it will be information on the various payment methods that we accept and instructions on how to create an online account.

INFORMATIONAL WEBINAR

For more information on the service transition, please scan the QR code to join us on **September 15th** at **10AM** for a webinar. We look forward to you joining us!

BEGINNING NOVEMBER 1, 2022

SERVICE TRANSITION

WILL GARBAGE AND RECYCLING RATES INCREASE?

Most accounts can anticipate seeing a reduction in their rates for both recycling and refuse services. As a means to encourage recycling participation, and create value, 95-gallon recycling service up to 1x-per-week, and 1-yard container 1x-per-week will be collected at no charge.

NEW CONTAINER DELIVERY:

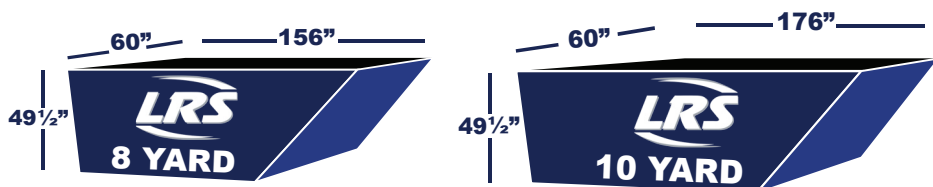

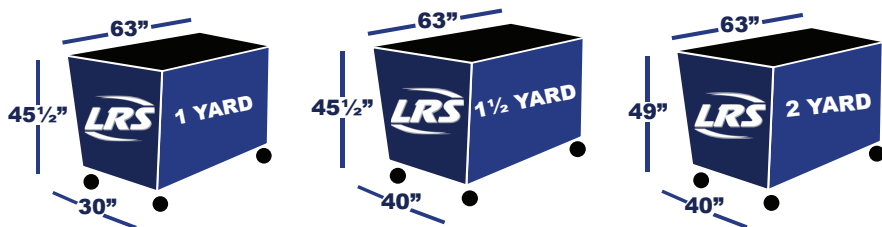

LRS will be working with the City, as well as the incumbent hauler to create a smooth transition. Businesses may begin seeing new containers dropped off beginning in the final week of October and through early November 2022. Your current hauler will continue to bill as normal through October 31, 2022. Additional details will be provided during the informational webinar on September 15th at 10AM.

LRS is committed to servicing the incumbent containers up until the time they are switched, if this takes place after November 1st.

WASTE SERVICES

As part of its new agreement with LRS, Evanston businesses will notice few changes in service options. If anything, those service options provided in the past will be more robust. In terms of waste service, Evanston businesses will have a range of service options from 65/95-gallon carts, 1-yard through 10-yard commercial containers and compactor services. Also available for heavier material, construction work and clean-out work are roll-off boxes, which range in sizes from 10-yard boxes to 30-yard boxes. We can provide these in as few as 24-hours in some cases.

RECYCLING

Recycling service options will closely mirror those offered for waste services. Carts will be available in 95-gallon sizes, and commercial containers will be available in 1-yard through 10-yard containers. Of course, should the need present itself, roll-off boxes are also available for recycling projects (wood, masonry, etc.). Evanston businesses are also eligible to take advantage of a 95-gallon cart or a 1-yard commercial container serviced weekly at no additional cost to complement their waste services.

PAPER

Newspaper & inserts
Computer printouts
Glossy brochures
Stationary
Envelopes
Cardboard boxes
Office paper/notebooks
Greeting cards
Chipboard/paperboard

Magazines, catalogs & phone books
